The Intelligent Temperature Sensor (ITS) technology, tracks and manages room temperature, increasing comfort and system energy efficiency.

The AirTouch 5 Smart Control System features a LARGE 8" High Definition controller, that will deliver the most sophisticated control of the air conditioning within your home incorporating a user friendly interface that doubles as a smart home hub. Compatible with Google, Alexa and Zimi, elevate your experience with the addition of home lighting, cameras and even a video doorbell. By selecting both the desired temperature and airflow in just 5% increments you're in total control from anywhere in your home. You'll also receive notifications including home temperature alerts and periodic service reminders. The AirTouch 5 offers the ultimate control for up to 16 zones. For even greater convenience, the system can link to your smart phone allowing you to operate and monitor from just about anywhere.

Just ask your Mouritz representative about the full benefits of the AirTouch 5 with 2 FREE Sensors ...it's the smart choice
